**ANNUAL STATISTICAL REPORT
FISCAL YEAR 2002-2003
NORTH CAROLINA ALCOHOL & DRUG ABUSE TREATMENT
CENTERS**

INTRODUCTION:

This is an annual report providing information from selected service indicators on the North Carolina Alcohol & Drug Abuse Treatment Centers (ADATC). Data included in the report are compiled from client admissions, client movements including discharges, and client diagnostic information. The data are stored in the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services Client Data Warehouse(CDW).

Six detail summary tables are presented in this report. Eight additional graphs are provided to highlight data in the summary tables. Table 1 provides population summary data for fiscal year 2003 for each of the three Alcohol & Drug Abuse Treatment Centers. Data on persons served by region and county are presented in Table 2a, Table 2b, and Table 2c. Table 3a provides the demographic characteristics of the persons served at the three ADATCs. Table 3b shows the number of persons served by the three ADATCs by employment status and education. Table 3c presents number of persons served by the three ADATCs for two populations of special interest, pregnant women and injection drug users, by commitment level, and by diagnosis. Table 4 provides a comparison of major service indicators for the past ten fiscal years and Table 5 provides Discharge Days and Average Length of Stay for each of the three Alcohol & Drug Abuse Treatment Centers. Table 6a displays the primary drug of choice, while Table 6b provides any drug of choice for three Alcohol & Drug Abuse Treatment Centers.

ADMISSIONS:

Admissions have Increased from 3,529 in fiscal year 2002 to 3,572 in fiscal year 2003. This is a 1.2% Increase from FY02.

DISCHARGES:

There were 3,589 total direct discharges, deaths, indirect discharges, and transfer-outs in FY03. There were no deaths reported during FY03. The percent of direct discharges among total discharges was about 99%, while the percent of indirect discharges, those clients being discharged while on some type of leave placement, was about 1% in fiscal year 2003.

PERSONS SERVED:

The statistic “Person Served” is calculated by summing the book population at the beginning of the fiscal year plus all admissions and readmissions during the year. There were 3,757 persons served in state Alcohol & Drug Abuse Treatment Centers during fiscal year 2003.

The number of persons served per 100,000 population continues to be significantly lower in the South Central Region, at 22.9, than in the remaining three regions, in which each of the ADATCs are located. The Western, Eastern, and North Central regions rates are 43.0, 53.7, and 58.1 persons served per 100,000 population respectively. The “Persons Served” rate ranges from a high of 169.9 in Rockingham County to a low of 1.0 in Cumberland County, with an overall statewide rate of 43.8.

The average length of stay in FY03 was 18.7 days, 0.2 of a day increase from 18.5 days in FY02. The length of stay increased at Black Mountain by 2.6 days and decreased at Jones by 0.5 days. Butner’s Length of Stay decreased by 1.5 of a day.

About thirty six percent of persons served at the ADATCs in FY03 were women, which increased from thirty four percent in FY02. The percentage of nonwhite persons served at ADATCs was 35.5% in FY03, slightly increasing from 35.2% in FY02 .

For fiscal year 2003, 45.3% of the persons served reported alcohol as their primary drug of choice and 39.2% reported cocaine. In FY03 alcohol as a primary drug of choice increased by 0.1% and cocaine as a primary drug of choice increased by 1.3% compared to FY02. Overall, 72.7% of persons served reported abusing alcohol, 63.1% cocaine, and 43.3% marijuana in FY03.
